

Family Freedom

"We had been using the products since 2006 and we became Distributors mainly to get a discount on the product for ourselves. But in 2008, we took a closer look and decided it could be a great way for us to supplement our income. We started looking toward our friends and family to share the results with them. This year, Doug has been able to quit his construction job to focus on the Reliv business. The freedom to travel has been wonderful for us since our family doesn't live nearby. A few years ago, I couldn't see myself doing this. I never would have imagined we would be able to bless others and spend more time with our family!"

Key Directors
Maria & Doug Weber
Stratford, Ontario

Unwavering Belief

"We started working Reliv on a part-time basis, but lately we have taken on more of a full-time attitude. This led to more bonuses and increased income. We have been able to use some of that income to fund long-distance travel to visit our daughters. Our belief in these products and this business is unwavering. We are never afraid to bring up Reliv when speaking to anyone. We are Distributors with the most ethical company in the world and are very proud of that. We know that, as Distributors, the leadership team at the corporate level is committed to our success. Reliv has never disappointed us!"

Senior Directors
John & Annette Stegenga
Jarvis, Ontario

Never Too Late

"Twenty years ago, we started taking Reliv products and had fantastic results. We weren't interested in the business side of Reliv at that time. But, eight months ago, we started as Master Affiliates. In addition to the income we've made, we feel rewarded to be able to help others with their health needs. I wish I had started my business 20 years ago, but it really is never too late to start with Reliv!"

Directors
Lily & Donald Taylor
Pickering, Ontario

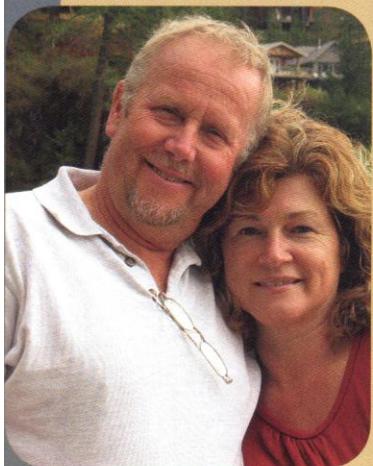

Sharing From the Heart

"There's been more excitement locally. More people are taking the business seriously, attending conferences, special events and MAT schools. All of the events get people excited about Reliv. Reliv has an incredible System in place to make it easy to get started. To keep the momentum, you've got to talk to new people. Just share it with excitement and passion — share it from the heart!"

Presidential Bronze Ambassadors
Gary & Laura Lynn Martin
St. Clements, Ontario

Don't miss your chance to network with our Canadian Distributors — along with Distributors from the US, Europe, Asia and Australia — at International Conference. It's the perfect opportunity to launch your own international business!

The statements contained in this material have not been evaluated by the Food and Drug Administration. The personal testimonials shared reflect individual experiences of Independent Reliv Distributors and are not necessarily typical of the results you may obtain. Reliv products are not intended to diagnose, treat, cure or prevent any disease.

As with any independent business, success as a Reliv Distributor requires a significant amount of hard work and dedication. The individuals featured in this material offer a glimpse into the lifestyle and economic benefits they are enjoying through the Reliv opportunity as a result of their own skills and personal effort. These stories are examples only and are not intended as averages or guarantees.

Good Nutrition Changes Lives — At Any Age

Vic Linden of Fairfax, Virginia, is 84 years old, a WW II vet and a retired carpenter. In 2005, Vic suffered a devastating stroke. "I couldn't do anything but eat and sleep," Vic recalls. "My vision had gotten so bad that my ophthalmologist told me I couldn't drive, and I was plagued by stiff joints."

In September 2006, Vic started on Reliv. "I noticed a difference right away," he says. "Before I knew it, I was taking long walks and working in the yard."

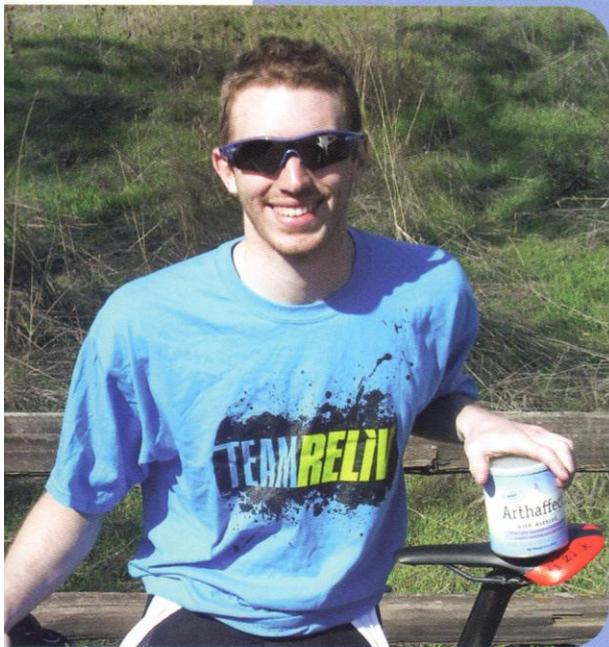

Vic had a long-time passion for competitive archery, but after his stroke he didn't know if he

could even draw a bow. In 2007, Vic tried competing again. "In competition, we have to shoot 60 arrows, 20 at 60 yards, 20 at 50 yards and 20 at 40 yards. It takes about 3 1/2 hours," Vic explains. In the previous three years, Vic came away with a silver medal each year. In 2010 he took home the gold!

"When I went back to my eye doctor, he was amazed by the improvement in my vision," Vic says. "I'm hardly aware of the physical limitations that used to slow me down. With God's help, and Reliv, I'm going to have a good life. Reliv is great!"

Vic Linden of Fairfax, Virginia.

Steve Weiler of Vancouver, Washington.

Triathlete Perseveres With Help From Reliv

Steve Weiler, a student at Washington State University, was a competitive and dedicated triathlete. Two years of competition had Steve thinking about a professional athletic career. But last August, while he was training on his bike, Steve was hit by a truck.

"My orthopedic surgeon found I had a broken tibial plateau and severe damage to the cartilage in my leg," Steve says. "He told me my athletic career was over, that in two years I'd have to deal with arthritis and that I might not be able to walk!"

After six weeks on crutches, Steve asked his doctor if he could

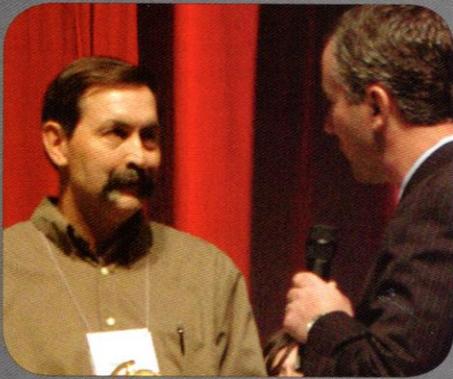

try biking again. "When I got back on my bike in December, I began using Reliv's Arthaffect[®]," Steve explains. "After a two-hour-plus ride, I'd be pretty sore, but Arthaffect helped me recover quickly and reduced the inflammation, soreness and pain in my knee. It allows me to train harder and recover faster."

"Now I'm also using Innergize![®] — up to three bottles on long rides — and it keeps my energy levels high," he adds. "I'm back on the cycling team at Washington State and I have also recently won two stage races. Reliv not only helps with my racing, but in my life every single day."

Hear remarkable Reliv health and business testimonials and meet the inspiring people behind them at International Conference. It's the world's biggest gathering of Reliv success stories!

in memoriam

We regret to announce the passing of Reliv Distributor **Tom Sneath** of Seymour, Missouri. Tom and his wife, Carolyn, became Bronze Ambassadors in April of this year. Tom was a wonderful leader, a caring human being and a great friend to all. Thank you for keeping Tom and his family in your thoughts and prayers.

Athlete Succeeds On and Off the Court

Special Olympian **Amanda Lines** of Hebron, Indiana, has improved her health with the help of Reliv's Slimplicity® program. As a basketball, volleyball and softball player, Amanda credits her weight loss for improvements in her athletic performance as well.

"Amanda's weight gain made it more difficult for her to compete on the basketball court," explains her mother, **Kendra Lines**. After the Special Olympics in June 2009, Amanda realized she needed to lose some weight in order to keep up with the team.

"After about six to eight weeks of using the Reliv shakes, she had a lot more energy for exercise," Kendra says. The added energy meant Amanda could take longer walks outside with her dog. When it rained, Amanda used a stationary bike indoors.

Since starting on Slimplicity, Amanda has lost 40 pounds. She is feeling so much better that she recently advanced from half-court to full-court basketball without any difficulty.

"Now I can play longer without having to be subbed out of the game as often," says Amanda, who plays guard on the team. "And I steal the ball a lot more on defense!"

Amanda Lines of Hebron, Indiana.

Eli Smith of Franklin, Indiana.

Flourishing With Reliv Now for Kids

"To watch my child flourishing is wonderful," says **Kim Smith**, a Reliv Master Affiliate from Franklin, Indiana. But Kim's three-year-old son, **Eli**, didn't always enjoy good health.

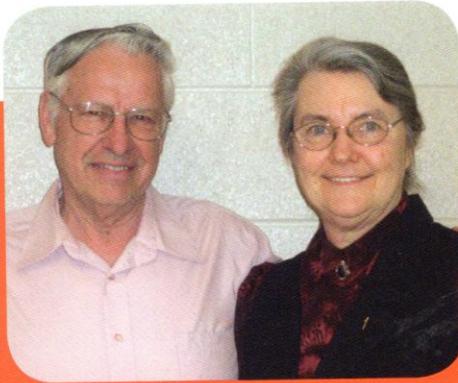

Eli suffered from several food allergies and asthma, and trips to the emergency room were common. His breathing problems and allergies kept him indoors while other children played outside.

A friend familiar with Eli's health issues gave Kim a can of Reliv Now® for Kids. Kim was skeptical, and the product sat untouched in her pantry for two weeks. "I didn't want to take the chance the ingredients would cause an allergic reaction," Kim explains.

When she finally introduced Eli to the product, she witnessed an astounding improvement. "With better nutrition in his body, Eli is a changed boy!" she says.

Kim is thrilled her son can now enjoy the outdoors with his family. "He loves hunting, fishing and camping with his dad," Kim says. Some of his favorite activities now include tee ball and playing outside with his dogs.

Kim looks forward to a healthier future for her children. "Sharing Eli's story with others has been amazing. I'm really excited that my kids will grow up with Reliv nutrition in their lives!"

Elo & Florence Sauder

Wallenstein, Ontario, Canada
Lawn & garden business owners

“With good nutrition, you feel better and are able to be happy. And hearing from people who now have better health and a better life because we shared Reliv with them is the greatest reward. Reaching Ambassador means we’ve been able to touch a number of lives through Reliv along the way. It’s easy to share something when you love the company and know the products work.”

Pedro & Teresa Colima

Des Moines, IA
Former owners of a cleaning business,
now full-time Reliv Distributors

“Achieving Ambassador is a great honor. Nowhere else would we receive this kind of recognition for our efforts. [Reliv Chairman, President and CEO] **Robert Montgomery** called us himself to congratulate us and welcome us as Ambassadors. We love sharing Reliv because it enables you to build a business that lasts. We want to help others discover what we’ve found in Reliv.”

Palawan, Philippines

HEALTH CONCERN:
Insomnia

Who says doctors don't have health concerns? Before Reliv, I had difficulty getting enough sleep and rest for more than 10 years. It started with the sleepless nights I dedicated to my studies when I was still in medical school, and it kind of stuck in my system even when I was already practicing as a physician and internist. Due to lack of adequate rest, my immune system had been affected and I suffered from frequent respiratory tract infections and easily caught colds.

Needless to say, my performance at work was greatly affected whenever I got sick. To keep myself up and about, I took medications and almost completely relied on them to make me feel better.

Being a doctor, I knew that I shouldn't bank on medicine to make me feel better but instead provide my body with proper nutrition. This is the reason why I got interested in Reliv and decided to try it. After regularly taking the shakes for two months, I felt the big difference in my body. I started to sleep longer at night and woke up feeling more cheerful and refreshed. Going about my daily routine at work became easier because I felt good. I also bid goodbye to my recurring cough and colds. At the end of each day, I was surprised at how much more

I had accomplished in the hospital and my body didn't feel as exhausted.

With the great health improvements that I experienced, I made a commitment to continue taking good care of my body by permanently including the Reliv shakes in my diet. I've shared my story with family members, friends, colleagues and patients and I'm glad because it didn't take long before I started sharing the products, too. It makes me very happy whenever they thank me because the products are helping them feel better!

Today, health concerns no longer hinder me from doing whatever I want. With the help of the Reliv products, I'm living a more active lifestyle and have a more positive outlook in life.

I remember the first time Reliv was introduced to me. It was after a trip to the mall, and while I was waiting for a ride home, a stranger approached and shared Reliv with me.

I had been suffering from body pain for more than five years and I knew how frustrating it felt to be sick and to try all kinds of medicine to no avail. After numerous check ups with different doctors here and abroad, they found a misaligned bone that was the cause of my recurring pain in the left part of my hips. I submitted myself to weekly chiropractor therapy that was very expensive. Unfortunately, after four months of undergoing the treatment, I started experiencing cramps on both legs every morning. I was depressed but couldn't find anything to help address my newly developed pain so I just had to bear with it.

Since I started taking the Reliv products, I have forgotten all about my body pain! Ever since I added the two Reliv shakes to my diet, my body seems to have gotten a lot better and I feel stronger. Now, I have stopped taking painkillers or any other medicine that never really addressed my health concerns but just covered up some of the symptoms. In addition to this newfound comfort, I

also experienced relief from the menstrual problems that had kept me from doing a lot of physical activities for seven years. What a relief, indeed!

I have been taking Reliv for seven months now and I have never felt this good! I started getting in touch with my long-time friends and I can join them again in their trips, sports events, and social activities. I've even started my own business - my Reliv business! I'm enjoying the freedom that I used to have as if God has given me the chance to RE-LIVE my life again. I am so thankful to the stranger who cared to share Reliv with me and has now become my upline. Because of the blessings of good health and better lifestyle that I am enjoying, I have become passionate in introducing Reliv to anybody and everybody that I meet and I am committed to continue taking my Reliv shakes for the rest of my life.

MASTER AFFILIATE TRAINING SCHOOLS

Make it a goal to qualify and attend the Master Affiliate Training School (MATS). These quarterly events give you the opportunity to network with other business builders as you learn important daily actions and principles for generating momentum in your organization. And you'll gather more stories from other leaders just like you.

My recurring headache for more than two decades was no longer a problem after regularly taking the Reliv products for a month. My family and friends were the first to notice that I stopped complaining about my migraines. They were also the first group of people with whom I shared my Reliv story. Those casual story-sharing sessions became the start of my business.

At first, I was much too busy in the corporate world and just shared Reliv whenever I had extra time or when I ran across someone who had issues with their health. With the very little time and work I did for my Reliv business, I earned between PhP5,000 to PhP7,000 monthly from retail and wholesale. That was unexpected income that covered some of my bills and I was happy to have it.

In one of my visits to Dallas, USA, my upline had convinced me to attend the Reliv Conference in Kansas City. There were about 2,000 people who attended the event and that became my defining moment - I came back to Manila and decided to work the business with a full-time attitude.

Plugging into the Reliv Success System was the best way to learn about the business since I had no background in network marketing. I made a commitment to attend the weekly Business Opportunity

Meetings and Basic Trainings and invite my prospects. I wanted to learn the business and make it second nature to me to share Reliv. I attended and did a lot of listening at many leadership conferences. I wanted to find many alternatives used by those more experienced in the business than I. Rather than reading up on ways to succeed in direct marketing, I opted to listen and duplicate. Each time I came back from a conference, there would be a burst of growth in my organization, with an increase in income. Duplication is very challenging - it is a humbling feeling, but there is joy - because in Reliv, it really works!

Reliv has allowed me to operate a fast-growing global business in countries that I would never have thought I could possibly have a business in. And the generous compensation plan is helping me get on the track to financial freedom. Since I started doing Reliv, I've already earned more than PhP1,300,000 plus PhP170,000 from cash bonuses. When I advanced to Key Director level, I received another bonus of US\$430. My biggest check to date is PhP142,000 in a single month. All of these experiences have shown me that there are no limits in Reliv and this is the reason why my passion to share the products and the business is growing everyday.

Reliv Freedom Brings Couple Closer Together

Jason Arntz, 24, was inspired to become a Reliv Distributor in college after witnessing improvements in his mother's health.

As a college student, however, Jason was initially more interested in having fun than starting a business. "I didn't really care about nutrition at that point. I think my body's chemical makeup was basically soda and pizza," he jokes. For three years, Jason didn't do much to build his business.

In July 2009, Jason married **Jen**, 23, and with marriage came a new outlook. "When you start making sacrifices, you find rewards. Eventually, the sacrifices become a joy," he says.

Then in August, Jason was laid off. He turned to his Reliv business for income. "I sat in a cubicle analyzing auto industry data all day. I wanted freedom to spend more time with my wife," he says. He and Jen started building the business together, eventually achieving the level of 3-Star Director.

Jason was given his job back, but after a few months, he decided to quit and focus entirely on Reliv. Jason and Jen want to spend more time together on ministry, music and dance. Their eventual goal is for Jen to focus on Reliv full-time as well.

"We have already experienced so much freedom through Reliv and we know the best is yet to come. Reliv is a business of the heart. Every day with Reliv, my vision of freedom becomes clearer," Jason says.

Jen & Jason Arntz of Grand Rapids, Michigan.

Bird family of Townsend, Montana.

Reliving on the Ranch

Senior Directors **Cory and Jennilee Bird** of Townsend, Montana, were able to expand their ranching business with income from their Reliv business.

"Before I started with Reliv, I knew more about salt licks for horses and cattle than I knew about nutrition for humans," Jennilee says. She learned more about nutrition when she saw her own positive results on Reliv. "I experienced fewer aches and pains, headaches and allergy symptoms with the proper nutrition in my body."

As horse dealers, ranchers and trucking company owners, the Birds are no strangers to hard work. They've incorporated Reliv into their array of business ventures by applying the same strong work ethic they need on the ranch. In fact, they've been so successful, they recently purchased a second herd of cattle with their Reliv earnings.

Jennilee says the key to their success has been to continue sharing Reliv with more people and to focus on helping their customers and Distributors. "I love to hear the stories of results people are getting and knowing that we played a part," she says. "It has really been phenomenal!"

JAP FONG & JACKIE LEE

Kuala Lumpur, Malaysia

PROFESSION:

Jap supervises a hardware shop while Jackie manages a pre-school

My wife and I are no strangers to the nitty-gritty of business building. We have been involved in setting up and managing different types of business for many years. We both know that starting one is no easy task - you need a lot of time, preparation, hard work, and money. But this outlook of ours changed when we were introduced to Reliv.

We were pleasantly surprised when the Reliv compensation plan was first presented to us. We thought it was too good to be true. The investment was quite small for something with such huge potential. We had no qualms about signing up right away at the highest profit level.

But because both of us were busy with our respective careers, we started working very part-time for our new Reliv business. It surprised us so much when we received our first Reliv check of about RM2,400. Jackie and I didn't really expect to receive a check from Reliv! What we did was just share the products and our story with people who were close to us. We were happy with the retail and wholesale profits we made, considering the little time we had allotted for the business. After receiving that first check, we realized that with Reliv we could start building our retirement plan. That was when we made a commitment to spend more time and effort in the business.

Since we've started, our biggest Reliv check to date is RM4,500 in a single month plus a cash bonus of RM5,000 for being the highest volume producer in October 2007. Less than two years of doing the business part-time, we have already earned more than RM30,000 from all forms of income in Reliv. Aside from the monetary earnings, we have also won all-expense paid trips abroad! In 2007, we enjoyed a Japan adventure trip in February and a visit to Missouri, USA, to attend the Reliv International Conference. Jackie and I can't wait for our next Reliv trip! It's going to be another free trip to the USA to attend this year's conference and the 20th Anniversary Celebration.

Our growing passion for the business helped us expand our organization. We are now working with more people who have also started building their own Reliv businesses. There is a great sense of fulfillment knowing that we are becoming instruments to help improve other people's lives. Reliv has given us joy and a whole new freedom! We do not worry about the family's future because of our growing Reliv income. We also get to spend more quality time together, and we are making more and more new friends. I can't think of any other business that offers this much opportunity!

When the Reliv products delivered on their guarantee of helping provide proper nutrition, we decided that the business opportunity could be worth a look, too. We started the business in October 2007 and poured in the same amount of passion we have for the products into building our own organization.

Our very busy schedule wasn't a hindrance in reaching out to our family and friends to whom we started introducing Reliv. Our first objective was just to share the products with as many people as we could and give them the opportunity to experience the same wonderful results we'd had. But after only a month of talking about and sharing Reliv, we realized that we had earned more than RM8,210 plus a cash bonus of US\$500. That's when we started understanding the bigger picture of this company - when you extend your hand to share Reliv and help people have a better life, you will be rewarded.

Since joining Reliv seven months ago, we have already earned more than RM19,000 from Overrides, wholesale and retail profit and cash bonuses. Even without any background in network marketing, we have been able to build our own downline organization with seven strong frontline Master Affiliates in less than a year.

Our relatively new business has also given us a chance to enjoy quality time together with an all-expense-paid cruise to Hong Kong and China in February of this year. It was an unforgettable trip for us and came as a big surprise when we found out that we qualified for it. This coming August, we will be traveling again as a reward for our growing business! We have qualified for a trip to the USA to attend Reliv's International Conference. We have always wanted to travel together and see more of the world and we are very happy that Reliv is giving us that opportunity.

Reliv has allowed us to start experiencing the luxurious lifestyle that we had been dreaming of. This business has allowed us to work side-by-side, spend more time building our future hand-in-hand, and enjoy all the great rewards together!

CONNECT
FOR MORE
STORIES!

THREE-WAY CALLS

Remember, stories are the foundation of your business. Share more exciting stories anywhere, anytime! This is possible in Reliv via Three-Way Calling. It's the best way to link a new person to more Reliv stories, spark their interest in the company, sustain the momentum and get positive results!

Have you ever gone to a trip with Reliv? If you haven't, you're missing so much in your life! My twin brother and I had our first taste of traveling with Reliv in 2006. It was an exciting island vacation in Dos Palmas Resort in Palawan, Philippines. We had so much fun during that long weekend. We thought it was one of the best trips we've ever had until Reliv treated us to another unforgettable vacation - a breath-taking cruise to Hong Kong and China!

Our anticipation for the cruise was such that our excitement was mounting fast and we couldn't wait for the date of departure! As my brother and I have never before traveled on the same cruise together, this Reliv trip became a dream come true for both of us. It surely gave us another great opportunity to spend quiet times reflecting on each other's thoughts.

We met the other Reliv Distributors on the first day and they were all just as thrilled as we were. For most of them, it was their first cruise experience while for some, it was even their first trip abroad. Our group was composed of doctors, office employees, government officials, stay-at-home mothers, entrepreneurs and retirees. We came from different countries in Asia with different cultures and beliefs. But our differences are settled by our same passion about Reliv and we were just so happy that we had the chance to meet each other.

Cruising the Pacific Ocean was an amazing experience! Seating at the ship deck and watching the sunrise while enjoying the sweet breeze would remind us of how beautiful life is. It made us reflect on our journey in Reliv. Our lives have changed since we started our Reliv business. My brother and I have been away from each other for almost 40 years so doing the Reliv business has become our way of making most of our time together. Being business partners strengthens our ties and it makes us happy to know that we are touching other people's lives and giving them the chance to live a better life through the products and business opportunities that Reliv offers. We are doubly happy because aside from the big check we're receiving, we also get the opportunity to have great vacations because of Reliv.

All throughout the trip, we enjoyed sumptuous food in the ship and lots of great times together! We went to Haikou, China and spent the day visiting the famous tourist attractions and tasted the local dishes. The night before we docked in Hong Kong, we had a videoke night! Everyone sang and had a great time. We hardly ever sing, let alone in front of other people, but it was impossible not to catch the Reliv videoke fun fever! That was definitely one of the highlights of the trip. In Hong Kong, we enjoyed a special city tour and we were given time to ourselves to enjoy and explore the tourist haven. What made this trip more wonderful is sharing the experience with three of the members of our downline. We got the chance to know each other better which is very essential in strengthening our relationship and building our Reliv business.

Another great thing about the trip was the time we spent listening and talking to the other Reliv leaders who have been in the business for a while. They are generous in imparting their wisdom and knowledge regarding so many things about the Reliv business. It is thoroughly enjoyable and invaluable at the same time and I shall never forget it. I think this is just part of the cruise experience which is vital and important, sharing and learning with others.

More Reliv trips await David and Horas this year! They will be going to Beijing, China in November for the Leadership Celebration and to Missouri, USA in October for the Ambassador Training.

Fueled Up for Success

My Reliv business only started four months ago and I can't believe how it has affected my life. I signed up as a Distributor right after I attended my first Business Opportunity Meeting. Reliv's fantastic compensation plan immediately caught my attention and I could tell that it was a very promising business. I was attracted to the fact that it is home-based so housewives like me could do it, and that it was not home-bound — the whole world is your potential market!

My children experienced great results with the products after only a couple of days of taking it, so I made the Reliv shakes a regular part of their daily meals. Now I don't worry about their asthma attacks because they hardly occur anymore and I have noticed how their skin has become smoother and healthier. My husband and I have always been conscious about our family's well-being and we are extremely glad that we are able to enjoy optimal health with the help of Reliv.

I started building my Reliv business by doing one-on-one appointments with close friends and relatives and sharing with them my family's health improvements. The 30-day, money-back guarantee is proof of the company's confidence in the effectiveness of the products, and this strengthened my belief and helped me become more passionate in sharing Reliv.

Signing up at the highest profit level was a very wise and practical decision. As a Master Affiliate, I was able to maximize my revenue potential because I earned from all avenues of income in Reliv. My first batch of product orders was finished in two weeks' time. I had re-orders and signed up six Master Affiliates within my first month of doing the business. I recovered my initial investment in less than four weeks and also earned more than RM4,000 from retailing the products and received a check of RM1,154 from my Overrides. To be honest, I didn't really expect the check from Reliv to come so soon. This business is indeed very rewarding!

On my second month in Reliv, my earnings got bigger and I qualified for the Live the Dream promotion. I will be going to St. Louis, Missouri, USA, in August to attend Reliv's 20th Anniversary International Conference. Best of all, I can bring my husband, Dr. Alias Embong, with me to enjoy the all-expense-paid trip. Moreover, Reliv sent me to Jakarta, Indonesia, last March for a specialized training when I advanced to Senior Director level. It was a very enlightening and informative workshop that helped me understand the business more. I was also happy to have spent quality time abroad with my loving husband. I used to work in a travel agency and had visited other countries, but I never had the chance to enjoy any of those trips with my husband. With Reliv, I can bring my husband along with me and not worry about the expenses or travel arrangements. It was one of the best times we've ever had and we can't wait for our US trip!

I came back home from the Jakarta trip filled with more excitement about Reliv. I reviewed my prospect list and set up more appointments and invited people to the Business Opportunity Meetings. As my organization grew, so did my Reliv earnings. I've already received more than RM30,000 from my Overrides alone since I started the business four months ago. I've also received cash bonuses of RM5,000 and US\$500. I could never have imagined that a simple homemaker like me could build a business from home and earn this much!

Today, I'm looking forward to expanding my organization and tapping into the international market. I've started listing down all the names of people I know from other countries. I wish to be an inspiration to other people and encourage them to start their own businesses. With Reliv, building your business equates to securing your future!

A Whole New Outlook on MLMs

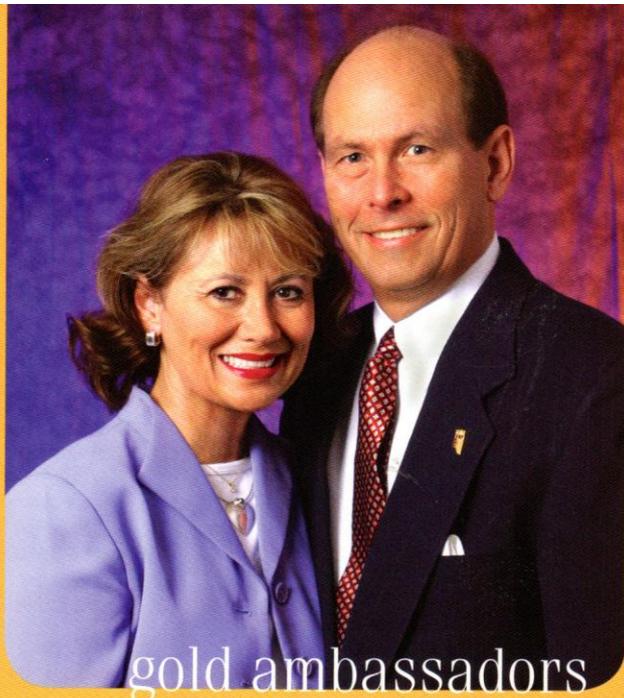

Multilevel marketing is not a strange concept to me. In fact, I have joined several MLM companies before — invested money, earned a little but never really did anything for long. The reasons? Some demanded too much of my time, some had inconsistent business plan, some didn't have very good products, and some just took too long to get back the capital I invested. I thought every MLM company was like this until I found Reliv.

I attended my first Reliv Business Opportunity Meeting in November 2007. I had no plans to get involved with another MLM company because I thought they were all the same — I've been there, done that. But I couldn't help but be impressed with the stories I heard. And having been exposed to various MLM entities before, I can say that the Reliv compensation plan has more potential. I signed up at the 20% level after two days. My children were not very happy with it because they thought it was just another MLM business that wouldn't work at all. But I saw something different in Reliv. With the blessings of my supportive husband, **Daud Ismail**, I started building my Reliv business by inviting friends and family members to attend the weekly meetings with me. Immediately I advanced to Master Affiliate and it wasn't long before I advanced to the Senior Director level and my organization grew.

After being diagnosed with diabetes two years ago, I have been keeping a close watch on my health and I have tried other health products but without much success. But after taking the products for a couple of days, I couldn't disregard the fact that I started getting better sleep at night. I began waking up in the morning feeling well rested and refreshed especially after late nights doing office work. Since then, I have been able to accomplish more tasks in the office and I haven't felt weary at the end of the day. After two months, my blood glucose and cholesterol level have gone down to a healthier level. This is a relief because I don't want to be drug dependent for the rest of my life. My wall of belief in Reliv grew stronger everyday and this helped me share the products and the business confidently with other people.

I was able to recoup my investment in the business by my second month. On top of that, I also received a check of RM1,048 from Reliv and made a profit of RM4,000 from doing retail and wholesale. That is so amazing! I have never earned this much from all the other MLM businesses I joined before. I haven't even gotten back my capital in the other businesses that I've been involved with. The month after that, I received another check of more than RM10,000 for my Overrides alone. The checks kept coming each month and my total earnings from all forms of income in Reliv got better each time. Barely four months into building my business, I have already earned more than RM32,000 and have also enjoyed a free trip to Jakarta, Indonesia. The trip was even sweeter because my husband came along and got a good break from his heavy work schedule.

My family is doubly happy and a lot more supportive today of my Reliv business. My eldest daughter has even decided to sign up as a Distributor. I love doing Reliv because it is very rewarding and doesn't keep me from doing the other things I want to do, like spending time with my family. This is a business I want my family to build and pass on to our children and grandchildren as a legacy. I am blessed that I found Reliv!

gold ambassadors

Blevins Find Success By Listening and Learning

When **Jeanne Blevins**, of Marietta, Georgia, began taking Reliv products in 1997 to improve her health, she didn't wait for results to start her Reliv business. She immediately became a Master Affiliate and relied on the power of her upline. "I introduced people to my upline, listened and learned," Jeanne recalls.

The strategy was simple but effective. At Jeanne's first Reliv conference, she won a Caribbean cruise, and in her first month in the business, she made \$650 in profit. Because of the cruise, her husband **George** joined her in the business. George was impressed with the Reliv compensation plan and the stories he'd heard about the health and financial results in people's lives.

"From the beginning, I knew it was important to lead with the business," George says. "To be successful, we also knew we had to work with our upline, be teachable and use the System. And that is what we have done."

By the Blevins' third month working together in the business, they had sponsored six other Master Affiliates. By the end of their first year, they had made \$35,000.

Eleven years later, as the Blevins become Reliv Gold Ambassadors, those same steps continue to pay off generously. Today, they make a healthy six-figure annual income and they've been on 58 all-expense paid trips with Reliv.

They continue to consistently work on their business every day. "We do the same things today as we did in the beginning," Jeanne says. "We're always adding new people to our list and helping them to see the Reliv story. We build our business wide and focus on helping our business partners reach their financial goals and be where they want to be. And we use all elements of the Reliv System. As leaders, people look to you as an example and we take that responsibility seriously."

Despite today's economy, Jeanne sees a hopeful future. "We don't have fear because in Reliv, we have something that will endure. This company has never let us down."

SUCCESS SIMPLIFIED

There are a million more stories waiting to be told and shared all around the Reliv world! How can you maximize these to grow your business?

Plug in the system!

The unique Reliv Success System encompasses a variety of elements to help Distributors capture and communicate the vision of Reliv. It streamlines and simplifies the process of introducing Reliv to prospects and it educates Distributors about the business. Messages and events are consistent from country to country, making it even easier to build an international business from the comforts of your own home. And, since the System is available 24/7 around the world, you can always find the support you need, right when you need it.

- ▶ Upline Support
- ▶ Three-Way Calls
- ▶ Business Opportunity Meetings
- ▶ Basic Trainings
- ▶ Training Calls
- ▶ Master Affiliate Training School
- ▶ Conferences

The Reliv Success System is proven, efficient, and effective and sets Reliv apart from other companies!

Are you putting all seven of these to work for you? Are you maximizing this proven path to success?

Seven elements = Seven opportunities to build your business.

"Follow the proven path to success!"

Steve Hastings
Reliv Senior Vice President
North American Sales

FULFILLING A PERSONAL MISSION

Two years ago, we started our Reliv business thinking that it is a good opportunity to begin investing for our retirement plan. Two years later, we find ourselves investing not just for our family's future but also for a personal mission – to affect change and share hope with as many people as we can.

The business opportunity that Reliv offers is something unique and a lot more rewarding than any other business ventures we've ever seen. Regardless of a person's social or educational background, anyone can do this business and, more importantly, anyone can succeed. The Reliv leaders that we met came from all walks of life and though they have different goals in life, everyone is bonded by the desire to share opportunities for a better life with other people.

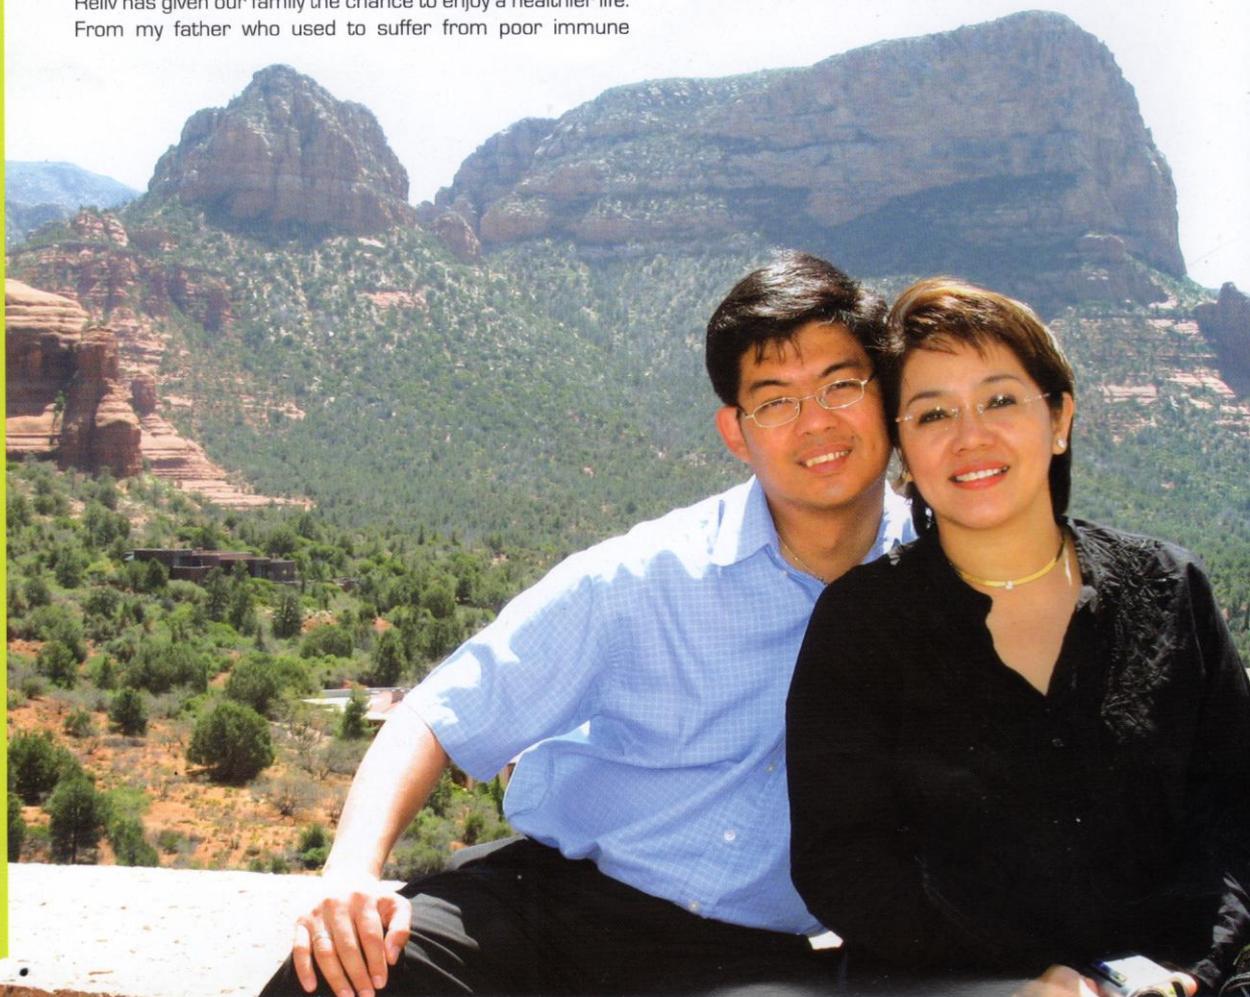

We find joy in knowing that the people to whom we've introduced Reliv with have found a way to start securing their future through the amazing business opportunity. We want to help people not by giving them fish but by teaching them how to fish. The Reliv business doesn't require a big investment and there is already a proven Success System to follow so we don't need to worry about thinking of business strategies or marketing plans to get going. We have never seen any other opportunity that even allows people with very busy schedules, like us, to build their own business. In Reliv, we are our own boss and we decide on how much time we spend in growing it.

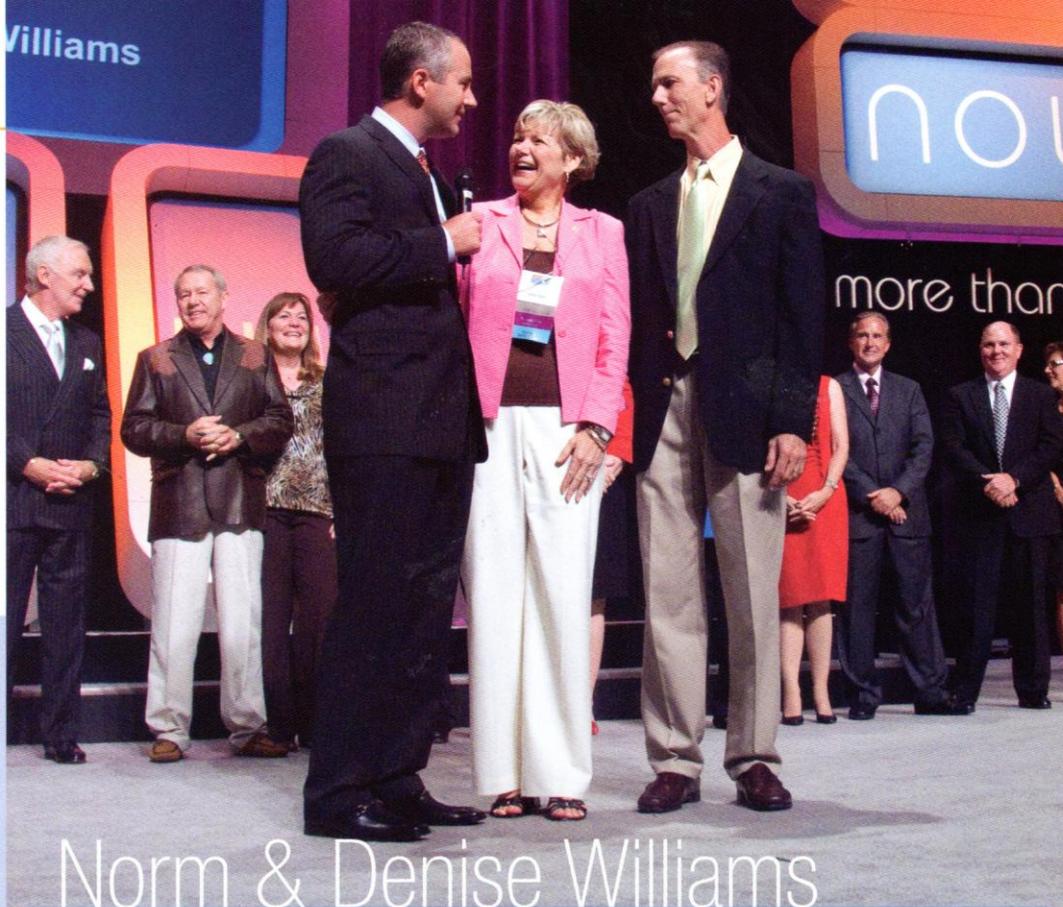

Reliv has given our family the chance to enjoy a healthier life. From my father who used to suffer from poor immune

system, to Jenny's sister who wanted to prepare for a new child, to our kids who used to get frequent cough and colds, Reliv has helped all of us nourish our bodies with the best nutrition. Aside from this, Reliv has given us the opportunity to experience a more comfortable lifestyle. Because of our Reliv business, we have no more worries about our children's education and what we will do if we decide to retire. Since we started earning extra income from doing Reliv part-time, we can now afford to have more frequent family vacations here and abroad.

Our Reliv business has also taken us to various trips all over the country to mentor other Distributors. We have also enjoyed all-expense paid trips to other countries – in Malaysia to attend the Reliv Conference in 2006, a Japan adventure where we bonded with other Reliv Distributors, in Indonesia for a workshop, and in the USA where we attended a specialized training for new Ambassadors. Before the year ends, Reliv will be treating us to a trip to Beijing, China, and we can't wait for it!

We thank God for allowing us to find good people who have become our partners in touching other people's lives. We are very grateful that we were introduced to Reliv because it opened so many doors of opportunities for us. Because of this, we have made it a personal mission to reach out to more people and share the blessings that we have been receiving.

Norm & Denise Williams

new president's team members

Denise and Norm Williams Named to President's Team

Established in 2004, the Reliv President's Team is an elite group of Distributors representing the top 15 incomes in Reliv worldwide. Reliv partners with the President's Team to provide input on a variety of projects, and members share their experience and expertise with the entire company as they assist Reliv in opening new countries and developing new markets.

The newest members to join this elite group are Presidential Silver Ambassadors **Denise and Norm Williams** of Hendersonville, North Carolina. "I was totally blindsided," Denise says. "My knees buckled, the room was spinning and I don't remember my journey to the podium."

But the meaning of the accomplishment was crystal clear to her. "Our whole organization won because you don't get here alone. We've been blessed with amazing leaders along the way. Being part of the President's Team represents the many lives we've helped change over the past 12 years through Reliv. It's about investing well in people and building relationships for the long haul."

Norm says their road to the President's Team was paved with doing the right things over and over. "We were faithful with the details every day, from using the Reliv System to doing follow-up. And we learned that people do what you do, not what you say."

Leading By Example

Executive Vice President of Worldwide Sales **Ryan Montgomery** says the Williams have always led by example, a skill that helped them develop a solid, long-term organization. "They understand the secret to this business, and that is putting others first and helping people get what they want. Reliv will certainly become a stronger force with Denise and Norm representing Reliv as the newest President's Team members."

Denise sees working on the President's Team as another step in her Reliv journey. "It's a privilege to represent Reliv in a decision-making realm. I believe Reliv is ready to explode into a billion dollar company and I am proud to help that happen."

Living and Earning Thanks To Reliv

Master Affiliates **Bev and Tom Webster** of Topsham, Maine, were reacquainted at their 50th high school class reunion, fell in love and got married. Two years later, the stock market plummeted and most of their retirement assets followed.

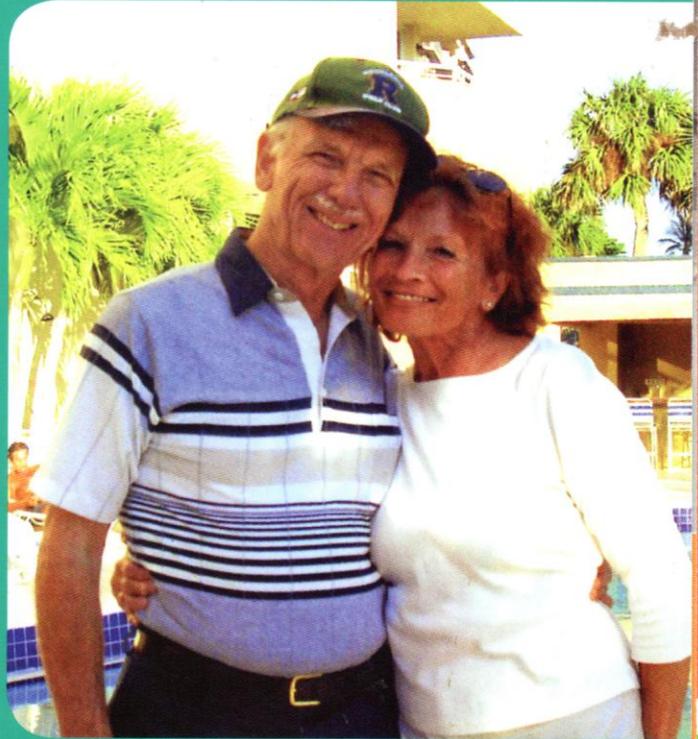

Bev, a cosmetologist, and Tom, an accountant, decided to seek part-time work to supplement their income but were unsure of what they might be able to do together. One of Bev's sons introduced the couple to Reliv and their lives took an unanticipated turn.

"Bev experienced relief from a painful eye problem and daily headaches and has an overall sense of better health," Tom says. "My cholesterol dropped

into healthy levels after 10 weeks on Reliv. Our improved health gave us a new lease on life."

The Websters became Master Affiliates in April and sponsored four new Distributors their first month in the business earning a \$250 bonus. "We began sharing the opportunity and products with everyone we knew," Bev explains. "Our results gave us passion and the system made sharing easy and fun."

Working closely with their upline, Bev and Tom are using each aspect of the Reliv System. Bev adds, "We're reaching for the stars!"

Tom & Bev Webster of Topsham, Maine.

Staying Excited About Reliv

"Reliv is something I continuously stay excited about," says Senior Director **Gwen Goodsell**, of Fredericksburg, Virginia. "When you know you've got something exceptional to share, it's easy to talk about."

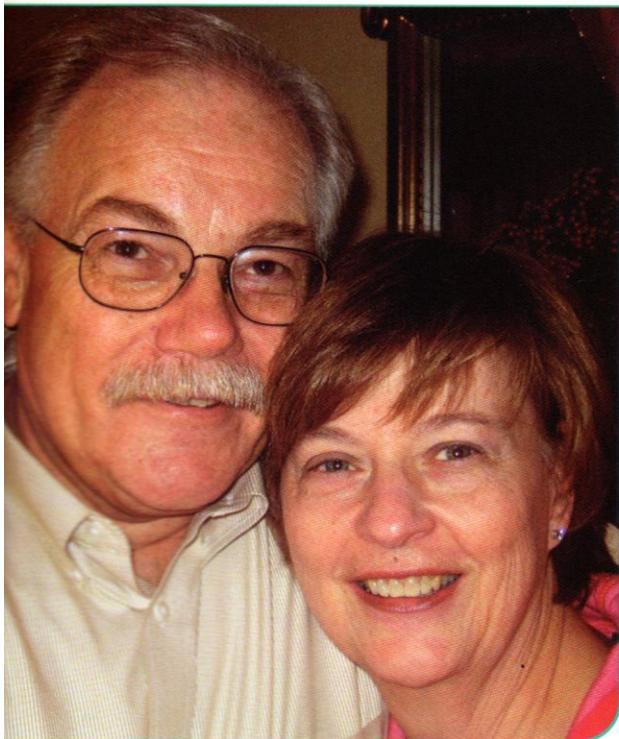

Gwen and her husband, **Bud**, started their Reliv business nearly six years ago. Gwen received positive results with her overall health and has an increased level of energy — she no longer feels tired all the time.

"Now I can live each day to the fullest," says Gwen, who believes they are truly answering the call to serve others through Reliv. In addition to helping more people than they ever dreamed possible, the two

have turned their own future into something much brighter.

"We'd suffered a financial setback several years prior," Gwen recalls. "It felt like that hole was getting deeper and deeper. Our first check was \$350, which gave us hope in a big way. We're on our way to retiring in comfort within the next three years, something we never thought possible. However, we will never retire from Reliv — it's just in our hearts."

"I love making that first call to someone and really taking the time to get to know them," she adds. "The hope is to truly make a difference in that person's life."

Bud & Gwen Goodsell of Fredericksburg, Virginia.

The Sky's the Limit

Born and raised in Vienna, Austria, Key Director **Sissi Humphrey** has lived in several different countries and held many different occupations. For the past 18 years, she has been a flight attendant for a major commercial airline.

Sissi, who lives with her husband and eight-year-old daughter in Petoskey, Michigan, joined Reliv in January 2008 as a Master Affiliate. After working her business part-time for a year, Sissi applied for an unpaid yearlong leave of absence from her airline job to take a “leap of faith” and pursue her true calling: Reliv.

This June, four months after going full-time with Reliv, Sissi's sales led all U.S. distributors. Her combined sales and bonus income totaled more than \$7,000! How did she build her business so quickly?

“I took massive action because I had a sense of urgency to stay home with my daughter.” Sissi says. “I got focused and committed to using every element of the System to put stories in front of people. This made it powerful for the people I was introducing to Reliv because they saw how they could duplicate my actions. While most of my success has come through my centers of influence, I'm creating more activity through newspaper ads, public bulletins, and job and health fairs. The sky's the limit!”

Sissi Humphrey of Vienna, Austria.

Amparo & Jorge Marles of Antioch, California.

Driven to Succeed

Key Directors **Jorge and Amparo Marles** of Antioch, California, joined Reliv in order to replace Jorge's salary. But their goals abruptly changed when Amparo's job was downsized, and the couple found themselves without her six-figure income.

“We asked ourselves, ‘Where do we want to be in five years?’ and agreed our future was with Reliv,” Amparo states. “That first month of doing the business full-time, we earned over \$3,000.

“Two months later, we suffered a very serious financial setback, which made us even more determined to succeed with Reliv,” Amparo continues. “The following month, we promoted nine Master Affiliates and achieved number one in the country in volume — earning just under \$8,000!”

Amparo credits their success to using the “10-10-10 Rule.” “Talk to 10 people within the first 10 days. Expose them to the System within the next 10 days, replacing those who aren't interested with new prospects. And by the last 10 days, you'll have several Master Affiliate candidates,” she states.

The Marles' goal now is to attend the Presidential Passport Trip to Hawaii as new Presidential Directors. “If we don't make it, that's okay,” Amparo says. “Most importantly, we'll have grown our business — and we'll be that much closer to our year-long goal of becoming Silver Ambassadors by next International Conference!”

Conference Inspires New Distributor's Success

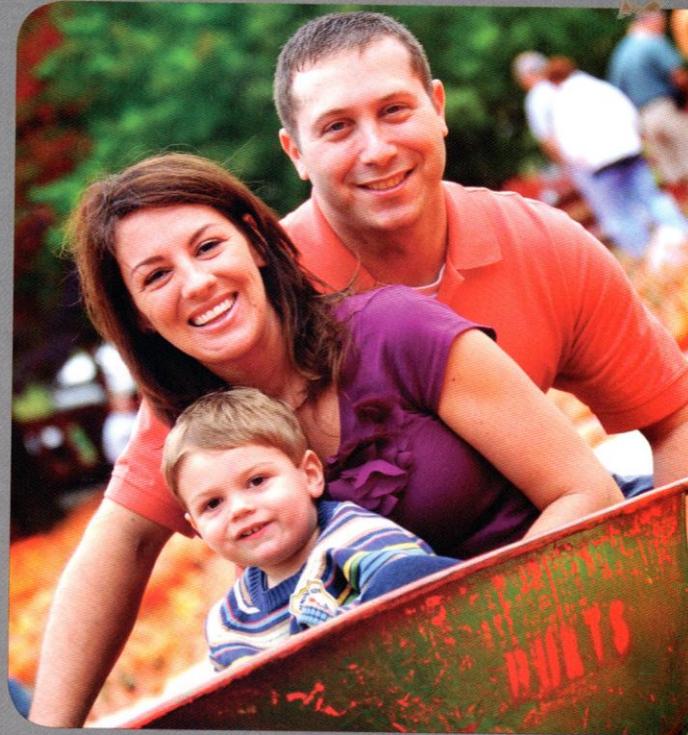

Key Director **Faith Michaels** became a Distributor in February 2010 after seeing how her family benefited from better nutrition. "We started on the products for wellness and prevention. We all started feeling really good and had more energy, and I noticed we weren't getting sick as often as we had the previous year," she says.

Faith took a fast track to success. She attended a Tuesday night meeting and a Saturday training in the same week. Just one week after that, she attended the National Conference in Phoenix and was inspired to build her Reliv business.

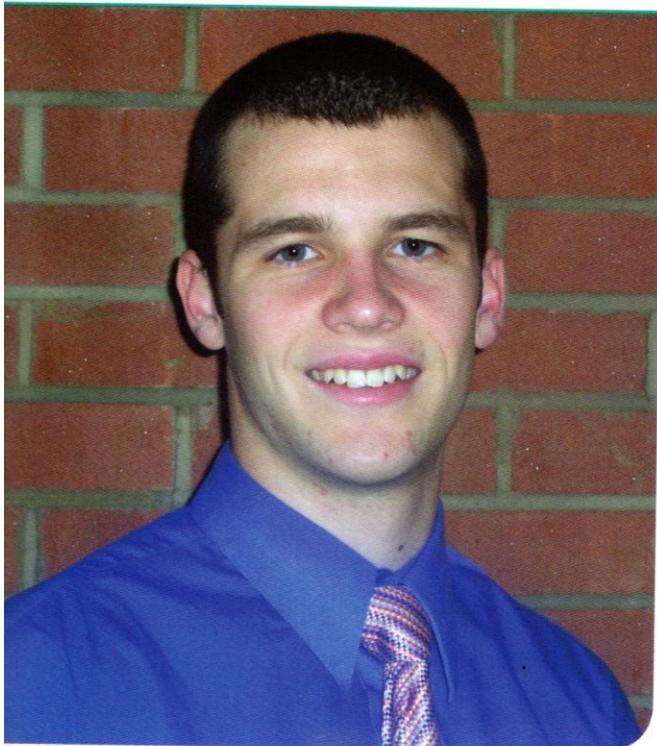

"Oh my gosh, the conference was amazing! Everyone in the room wants to help other people. The way the company is run and the integrity is amazing," Faith says.

"One of the things I really like about conference is that all of the speakers are from the company. It is so much more effective than having an outsider come in to speak to us because they can relate to Reliv and they know what the company is all about."

As a newer Distributor, Faith finds the support from others to be very encouraging. "So many people with different backgrounds and from different walks of life love what they are able to do with Reliv. I am proud to be a part of this wonderful community."

Michaels family of Alpharetta, Georgia.

David Townsend of Front Royal, Virginia.

College Freshman Building a Future With Reliv

David Townsend is 18 and a freshman at Christendom College in Front Royal, Virginia. He's a young man with ambitious dreams.

When David's mom heard about Reliv, she thought it might be an opportunity for her son. David agreed, so he used the money he'd saved for a car to invest in his future. "I came in as a Master Affiliate in October because I saw a great opportunity with a company devoted to helping people," he says.

Although school — and the basketball team — keep David busy, he's found the time to grow his business. He's now a Reliv Director.

"It's gone well," David says. "People are responsive to the oppor-

tunity and impressed with the quality of the company. I attend training when my schedule allows, but now that basketball season is over, I'll have more time to learn and grow."

David's mom and some of her friends have become a part of his organization and he sees tremendous potential in his peers at school. "I know how great the products are from my own experience," he explains, "and people my age are surprisingly nutrition-conscious."

"I intend to become a Star Director this year, and earn \$1,000 a month," he adds. "From there, the sky's the limit as far as I'm concerned. With Reliv, great things are possible!"

Slimplicity Works

Running up on stage at International Conference in August to be recognized as the winner of the Slimdown 2009 Weight Loss Challenge was something **Debbie Estridge** never thought she'd do. Before taking Slimplicity®, excess weight and knee pain made it nearly unbearable to walk.

"After starting on Slimplicity in February I noticed I wasn't as hungry," Debbie says. "As I gained energy, I started challenging myself to park a little further from the store and walk a little longer before checking out."

Five months later and 62 lbs. lighter, Debbie joined a gym. She says, "I feel like a brand new person."

Weight Melts With Slimplicity

A Type 1 diabetic, **Angela Hosman** of Phoenix, AZ, was told by her doctor in December 2008 that if she didn't get her blood sugars and weight under control she would lose her legs by age 35. "It was a wake-up call for me," Angela recalls. "My mother-in-law introduced me to Reliv and I started on GlucAffect® and the basic nutrition."

Angela lost 12 lbs. in January and, after adding Slimplicity® in February, lost nearly 30 more. Today her blood sugar levels have

greatly improved, she has decreased her risk for heart disease and she is active. She adds, "Slimplicity makes losing weight easy!"

Weight Loss, Confidence Gain

Like many Californians, **Tracy Balough** of Orange County loves Disneyland, swimming and hanging out with friends. Unfortunately, until this past spring, joint problems and extra weight prevented the 29-year-old from being able to walk a lot.

"My overall health wasn't good," Tracy says. "I began taking Reliv's basic nutrition in March, had lost a little weight, and then added Slimplicity® to my diet in April."

Four months later, the new Reliv Director has lost nearly 45 lbs. and 18% of her body weight. Tracy adds, "My energy level is terrific, I'm more active and much less self-conscious. I love that Slimplicity is so easy to use and tastes great!"

Slimplicity Liberates and Satisfies

Captain **Steven Lucks**, of Idaho Falls, Idaho, feels liberated. He's 46 pounds lighter and plans to keep going.

Keeping the weight off wasn't always a problem. "You had to stay in shape in the Navy," says Steven.

"While I was in Iraq, the food was very natural and good. Nothing was processed. But I got home and started eating a lot of fast food. My weight went up, and it was tearing down my body, especially my joints.

"Before I started taking Slimplicity®, I never felt satisfied," he notes. "Now I just don't want the junk anymore."

Feeling Good With Slimplicity

Lloyda Hosman of Peoria, Arizona, couldn't be happier. Thrilled to be wearing much smaller clothes and doing yoga, she's dropped 40 pounds overall with Reliv, and has stabilized for the past two months.

"With Slimplicity®, I don't feel deprived at all," says Lloyda, who has tried countless diets before without much success. "As a hypoglycemic, losing weight was always hard for me. I always felt like I needed to reach for something throughout the day. But Reliv has built my body into a stronger one, and my emotions and self-esteem are so much better. I've never felt this good."

Look under the "Success Stories" tab of slimplicity.com to view before and after photos of our Slimdown winners.

Real Results With Reliv

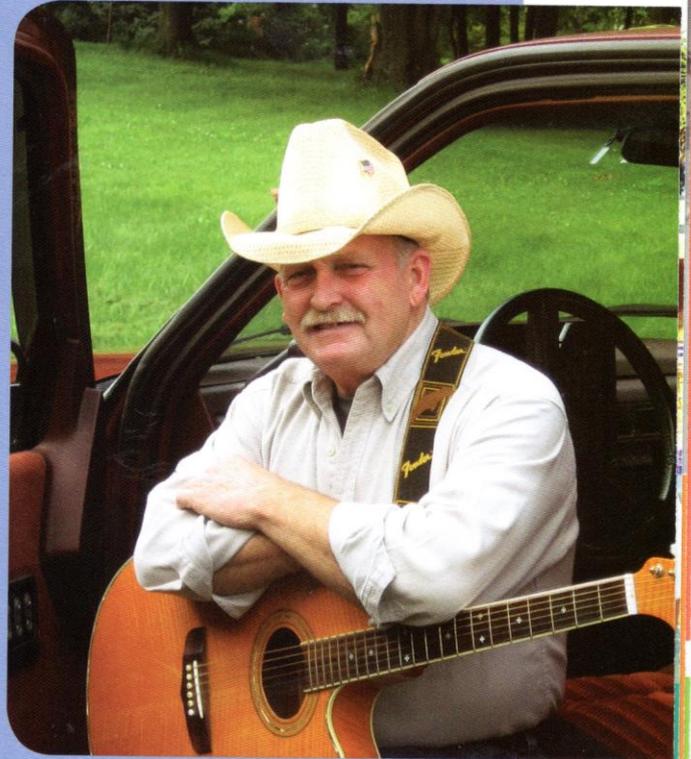

Byron Wyant of Germantown, New York, dealt with diabetes, and its side effects, for years. His energy was low, he had stomach troubles, skin problems and a pretty bleak future.

"My blood sugar was through the roof and at dangerous levels," Bryon says. "I was put on a 1,200-calorie diet and lost 70 lbs. but couldn't get to a level my physician was happy with. In January, my sister Patricia suggested GlucAffect®, Reliv Now® and Innergize!®. My blood sugar has since stabilized and is in the healthy range!"

Byron is a busy man, working 10-12 hour days as an energy

service technician, playing with his band and customizing hot rods on weekends. "I now have the energy of a 20-year-old and I'm 63," Byron says. "I can go all day... and half the night. Plus, my cholesterol, blood pressure — everything is normal."

After eight months with Reliv, Byron sees his life differently. "I'm dedicated to Reliv, to sharing my story with anyone whom I can help. I diligently follow the recommendations from my sister and upline and I've found the answers I needed. I am very thankful to have found Reliv. We all deserve the health and hope it brings."

Byron Wyant of Germantown, New York.

Carol Brower of Sioux Falls, South Dakota.

Brighter Days

Life is a lot better for **Carol Brower** and her husband, **David**, of Sioux Falls, South Dakota, since they discovered Reliv. Carol was diagnosed with rheumatoid arthritis in 2007 and lived with chronic pain. She couldn't sleep at night and could only navigate stairs using a cane. Later, she was also diagnosed with osteopenia, diverticulosis and adrenal failure. "I was to the point that David had to help me get out of bed," she recalls.

Carol says she noticed big changes after only two weeks on

the Reliv products. "I was sleeping better at night, walking better and getting out of bed with ease," she says. "And I have more energy. More importantly, I have very little discomfort in my joints and can get through my day."

David also had good news. In addition to sleeping better at night, he's lost 14 pounds and his allergy symptoms and problems with constipation have cleared up. "We are so grateful for Reliv," Carol says.

“It’s A Story-Sharing Business”

Rose & Albert Blancaflor
Presidential Directors, Silver Ambassadors & Inner Circle Members
Pasig City, Philippines

“Have you heard about Reliv?
Let me tell you our story!”

This is how we are building our business – by sharing our story with other people. And this makes our business unique! Everybody loves to listen to interesting stories, especially those that talk about our dreams and that give hope. Our stories, and those of all the other Reliv Distributors around the world, do just that!

We were introduced to Reliv more than fifteen years ago, long before it started operations in the Philippines. My mother was the first to experience the wonderful results of using the products, and it was a natural thing for us to share her story with close friends and family members. Good news spread fast and it didn’t take long before friends of friends started asking us about the products.

Just imagine our joy when Reliv opened in the Philippines in 2001. Finally, we could share the fantastic products as well as the income opportunity with other people and start our own Reliv business! By utilizing the different elements of the Reliv Success System, we were able to reach out to more people and connect them with stories from all over the Reliv world.

Soon we realized that the more people we talked to and introduced to Reliv, the greater our monthly checks grew. Many of our customers decided to join us in the company and build their own Reliv businesses. We taught them how to share their stories and plug into the Reliv System. As a result, they are now enjoying a more comfortable lifestyle – just like us. We found fulfillment in helping others realize their dreams through Reliv. And as they reach their goals in life one by one, our business gets stronger and our income bigger – and that’s another set of stories to tell!

Rose and Albert are among the most successful Reliv Distributors, not just in the Philippines, but throughout the world. Since they started sharing Reliv stories seven years ago, the couple has already earned more than PhP27million from all forms of income and has enjoyed free Reliv cruises and trips to various parts of the country and journeys abroad to countries like the USA, Europe, Australia, New Zealand, Germany, Malaysia, Singapore, India, Thailand, China and Japan.

Lumen Ong
Presidential Director & Bronze Ambassador • Quezon City, Philippines

A plain housewife is how I used to describe myself. But Reliv changed that and turned me into an empowered and, I am told, inspiring home-based business owner today!

Without any business or network marketing background, I’ve built my Reliv business from home. Equipped only with stories of my family’s experiences with the products, I confidently talked to people and shared stories. House-

wives like me loved my stories, not to mention the idea that they could contribute in providing for their family’s finances. True enough, the sharing of stories became an opportunity for them to enhance their personalities and become better and more productive people.

Don’t get me wrong, housewives were not the only ones with whom I shared my stories. I believe that everyone desires better health and more savings
